

## Gas Consulting

## RPS Gas Consulting... ...what we offer

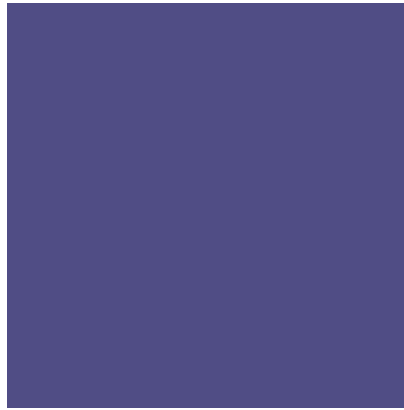

RPS Gas Consulting covers all commercial aspects of the gas value chain, from gas strategy, upstream commercial arrangements and agreements, through to transportation and gas marketing.

- Gas value chain strategy - including country gas master plans, industry structure and regulation, company gas strategy and portfolio development, gas and LNG project commercialisation structures and plans, gas and LNG infrastructure and markets.
- Contract negotiations and business development - including development of objectives, commercial structures and negotiating tactics, as well as delivery of key agreements (MOUs, term sheets, gas and LNG sales contracts, Joint Operating and other partner agreements) and identification of enhancement opportunities for existing agreements.
- Joint Venture management – from design, negotiation and set-up to implementation and ongoing management, including maximising influence and dispute resolution.
- Independent reviews of gas value chain issues – covering all aspects of joint venture and project commercial structures, specific business cases, contract reviews and dispute analysis and advice.

### **The people in our gas team have:**
