

MYPROJECTS

myProjects is an innovative Project Management Office (PMO) solution that takes the complexity out of reporting and governance.

myProjects is a secure cloud-based solution that is flexible to your program and project requirements and ensures insights – from site safety and critical path progression to overall budget, risk and status reports – are accurate, aligned and available at any time.

myProjects allows you to apply your own PMO governance principles to fit the program. All internal and external stakeholders are empowered to operate consistently and collaborate with ease.

myProjects is deployed in weeks, adding value and saving time for your organisation.
